

DISTRICT HEATING IN GERMANY
WEBINAR ON OPPORTUNITIES IN SACHSEN
THURSDAY 26 NOVEMBER 2020 AT 13.00 TO 14.00

Investment - Expansion - Modernisation

The district heating sector in Germany is investing in further expansion and modernisation through engaged cities and Stadtwerke supplemented by earmarked funds from both federal and regional levels. The district heating has found its place as an energy efficient heat source supporting Germany's target of climate neutrality by 2050.

DREWAG – Dynamo of Dresden’s Energiewende

DREWAG - Stadtwerke Dresden GmbH is one of Germany’s larger public utilities. It provides power, heating, gas and water for Dresden in Sachsen. Today, the company is transforming towards more efficiency and more renewable energy sources for heating and therefore plays a role in Sachsen’s and Germany’s heating transition - “Wärmewende”.

Logstor – partner in Germany’s Wärmewende

Logstor is the world’s leading manufacturer of pre-insulated pipe systems used in district heating. The company has 50 years’ experience in development, manufacture, sales and service of district heating systems. Today, the company employs 1200 people in 12 countries – including Germany which is a main market for the company taking part in heating projects throughout the country, including Sachsen.

Denmark is Engaged

Denmark is well connected to the sector through long-standing collaboration at industry level accompanied by dialogue between energy authorities to strengthen the expansion of district heating in Germany. The Trade Council, DI Energy, DBDH and the Danish Energy Agency collaborate to build on the business potential within district heating in Germany, enabling Danish industry to engage further.

Key Stakeholders Share Insights

At this webinar, we look at plans and opportunities in the state of Sachsen.

PROGRAM

- 13.00 Welcome and Introduction
Senior Advisor Hans Peter Slente, Danish Energy Industries Federation

- 13.05 Wärmewende in Germany in a Danish Perspectives
Senior Energy Advisor Christian Bjerrum Jørgensen, Danish Embassy in Berlin

- 13.15 District Heating in Sachsen – Status, Plans and New Developments
Head of Power Plants Dr. Rutger Kretschmer, DREWAG - Stadtwerke Dresden GmbH

- 13.30 Challenges and Possibilities within District Heating in Sachsen – and Germany
Vice President Sales, Dipl. Ing. Tobias Langer, LOGSTOR

- 13.50 Questions and answers – join the chat

- 14.00 Summing up and next steps

Moderator: Senior Advisor Morten Jordt Duedahl, Danish Board of District Heating
