

Ukraine-Denmark Energy Center

How UDEC supports activities in the District Heating Sector

Kiev, 5 December 2017

*Government cooperation on strategic energy planning between
Ukraine and Denmark*

UDEEC and District Heating

- Started 2015, new 2nd phase from 2018 to 2020
- 6 cooperation themes / outputs related to national energy policy
- #6 is about renewables and district heating

How did we support:

- Transfer of Danish knowledge of DH planning
 - Policy incentives; tax advantages, long depreciation time
 - Mapping, zoning
 - Financial models, feasibility studies
- Showcase Danish investments in RES generation, W2E
- Creation of links between IFI's and Ukrainian Government
- Analysis – options for increased use of renewables in the DH sector
- Strategic city level analysis (SEP) in 4 cities in the Lviv Region
- Enhancing the Project Investment Platform – UA Map
