

**JOINT  
DANISH  
STAND**

# **XXI ANNUAL DISTRICT HEATING FORUM**

**MIEDZYDROJE, POLAND - 10 TO 13 SEPTEMBER, 2017**

Are you interested to participate in a joint Danish stand during the XXI District Heating Forum in Miedzydroje?

In cooperation with IGCP and the Danish Embassy, DBDH have made a prebooking for up to 48m<sup>2</sup> of exhibition space, which can be shared by up to 12 companies. The total exhibition area will be flexible according to the number of participating companies.

Participating at a joint Danish stand will give your company the full advantage of the Danish brand and attract attention from the Polish audience who are aware of the quality of Danish solutions and technologies. We will offer one large stand fully equipped including refreshments for excellent networking possibilities.

## ABOUT DISTRICT HEATING FORUM

The District Heating Forum in Miedzyzdroje is the largest event of the heating sector in Poland, and is attended by representatives of all major heating companies operating in Poland. The Forum has been organized by Polish Chamber of District Heating for the past 20 years in Miedzyzdroje near Szczecin. This year is the 21 anniversary edition.

The Forum consist of seminars and debates in parallel with a district heating exhibition, where companies can present their technological solutions and services. In 2016 the number of participants amounted to more than 550 people representing the district heating sector. Forum event is an opportunity to exchange views and look at the current situation in district heating.

"Day of New Technologies" is dedicated to the latest technological solutions already operating in the industry and visions and forecasts related to future technologies.

During the Miedzyzdroje Forum a District Heating Laurel is handed over by Polish Chamber of District Heating in number of categories including heat sales.

The main topic of the seminar during Miedzyzdroje Forum 2016 was "Role of district heating in building city of the future". The panelists for the discussion were representatives of Ministry of Infrastructure and the Ministry of Environment. Danish side was represented by Birger Lauersen – Vice President of EuroHeat & Power.
